

## Standard Sizes

To improve manufacturing times and to comply with current UK road regulations, our plant rooms are standardised in to 14 standard self enclosed sizes.

Current UK road regulations make it difficult to transport modules over 4 metres in width, 18 metres in length and 4 metres in height. Furthermore, the potential weight of modules exceeding these dimensions can often make the cost of offloading and positioning expensive.

Widths greater than 4 metres can be accommodated but do involve the use of escort vehicles. However the risks of delays en route are high and can prove very costly when expensive cranes are standing idly by.

Armstrong do appreciate the need for non-standard sizes as a consequence of restrictions imposed - for further information and advice on non standard sizes please contact our offices.

Modular plant rooms are also available, manufactured from any combination of the standard sizes available. Pipework runs between interconnecting modules are simply connected via flanges or other approved mechanical joints whilst electrical cables are joined with multi-connectors. For further information and advice on modular plantrooms please contact our offices.

The following standard self enclosed sizes have been selected based on our experience within the industry and following discussions with our clients and consultancy base.

**Width (mm) Length (mm) Height (mm)**

|      |       |      |
|------|-------|------|
| 3000 | 4000  | 3000 |
| 3000 | 5000  | 3000 |
| 3000 | 6000  | 3000 |
| 3000 | 7000  | 3000 |
| 3000 | 8000  | 3000 |
| 3000 | 9000  | 3000 |
| 3700 | 5000  | 3000 |
| 3700 | 6000  | 3000 |
| 3700 | 7000  | 3000 |
| 3700 | 8000  | 3000 |
| 3700 | 9000  | 3000 |
| 3700 | 10000 | 3000 |
| 3700 | 11000 | 3000 |
| 3700 | 12000 | 3000 |
